NEW CHIROPRO & CHIROPRO PLUS

Simplicity. The cornerstone of the new range of implant and oral surgery motors developed by Bien-Air Dental.

When designing these two new systems, everything was geared towards making these ingenious solutions simpler to use, down to the smallest detail.

Despite their different fields of application, the **Chiropro** and **Chiropro PLUS** systems are both equally simple to use.

INTUITIVE NAVIGATION

With its single rotary knob, navigation is easier than ever before. Simply turn the knob to scroll through the menus, then click to confirm your choice.

ABSOLUTE PRECISION

Thanks to its high-precision electronic system, the torque selected on the console corresponds exactly to the torque obtained at the output of your instrument*. No further calibration is needed. It's as simple as that.

PRE-SET SURGICAL PROTOCOLS

Thanks to the pre-set surgical protocols, you can carry out your procedures in no time. Use your patient's clinical data to determine the number of sequences required to perform your procedure - 3, 4 or 5. The parameters of each step are then automatically displayed. You can now simply treat your patient. It's as simple and reliable as that.

CLEAR, CONCISE INTERFACE

The simple and discreet screen provides you with access to all the information you need to ensure your procedure is a success: choice of handpiece, speed, torque, irrigation flow and direction of rotation.

AND MAINTENANCE IS SIMPLE, TOO

The single rotary knob is easy to remove from the unit for sterilization. In addition, the control panel is protected by highly resistant glass that is easy to clean.

* According to tests carried out in Bien-Air Dental's research laboratory, the torque values displayed on Bien-Air Dental systems are considerably more accurate (+/- 5% margin of error) than those displayed on competitors' systems (+/- 10% margin of error).

NEW CHIROPRO

PURE SIMPLICITY

IMPLANTOLOGY
motor system

General dental practitioner or experienced surgeon, are you seeking a fast, simple and efficient solution for your implant dentistry procedures?

Look no further than the **Chiropro**. Your perfect solution for precise and smooth placement of implants.

IMPLANT DENTISTRY

Powered by the **Chiropro**, the new MX-i micromotor combined with the CA 20:1 handpiece offer you the very best rotary technology for all your implant-related procedures.

Coupled with the MX-i micromotor, the CA 20:1 handpiece (also available in Kirschner/Meyer and Micro-Series versions) provides unparalleled speed stability for precise and smooth placement of implants. As the most durable implantology handpiece on the market*, the CA 20:1 handpiece has a unique internal irrigation system. Thus, you are not bothered by the irrigation line when handling the instrument. You can carry out your procedures easily and with confidence.

SWISS MADE

* According to tests carried out in Bien-Air Dental's research laboratory, the drive system of the CA 20:1 CA handpiece has been optimized to withstand more than 1600 uses at 70 Ncm. This substantially increases the instrument's service life.

NEW

CONTRA-ANGLE WITH LIGHT CA 1:2.5 L

1 x CONTRA-ANGLE CA 1:2.5 L MICRO-SERIES
REF 1601055-001

- Patented external irrigation technology
- Multiplier 1:2.5 - Maximum speed 100,000 rpm
- Multi-strand optical glass technology
- Highly resistant to corrosion

CONTRA-ANGLE WITH LIGHT CA 20:1 L

1 x CONTRA-ANGLE CA 20:1 L MICRO-SERIES
REF 1600692-001
OR
1 x CONTRA-ANGLE CA 20:1 L STANDARD
REF 1600598-001

- Patented external irrigation technology
- Multi-strand optical glass technology
- Highly resistant to corrosion

PM 1:1 EXTERNAL SPRAY

1 x PM 1:1 REF 1600052-001

- External spray
- Compatible with Micro-Series micromotors
- Without light

PM 1:2 EXTERNAL SPRAY

1 x PM 1:2 REF 1600436-001

- Sleeve with irrigation tube locking ring
- Compatible with Micro-Series micromotors
- Shank instrument with a diameter of 2.35 mm, Bur Guard sterile sleeve
- Up to 80,000 Rpm

KIT MOTOR MX-i LED + CABLE

(FOR NEW CHIROPRO 3rd GEN)

SET MX-i LED + CABEL MX-i LED REF 1700744-001

WITH:
- 1 x MICROMOTOR MX-i LED 3rd GEN REF 1601008-001
- 1 x CABLE MX-i LED 3rd GEN REF 1601009-001

KIT MOTOR MX-i LED PLUS + CABLE

(FOR NEW CHIROPRO PLUS 3rd GEN / iCHIROPRO / CHIROPRO L)

SET MX-i LED PLUS + CABEL MX-i LED PLUS REF 1700758-001

WITH:
- 1 x MICROMOTOR MX-i LED PLUS 3rd GEN REF 1600755-001
- 1 x CABLE MX-i LED PLUS 3rd GEN REF 1601069-001

ROTARY KNOB

(FOR NEW CHIROPRO 3rd GEN)

1 x ROTARY KNOB
REF 1307031-001

Sterilizable rotary knob

IRRIGATION LINES

10 x IRRIGATION LINES
REF 1500984-010

10 x IRRIGATION LINES KIRSCHNER/MEYER
REF 1501635-010

Set of 10 irrigation lines sterile single use

STERILE PROTECTIVE FILMS

10 x STERILE PROTECTIVE FILMS FOR IPAD
REF 1501746-010

or 10 x STERILE PROTECTIVE FILMS FOR CHIROPRO 3rd GEN
REF 1502329-010

Set of 10 sterile protective films for single use
