REF 1700768-001

## HIGHEST POWER

140 watts: the most powerful on the market.

## STABILITY AT LOW SPEED

Operate with confidence at low RPM for implant placement.

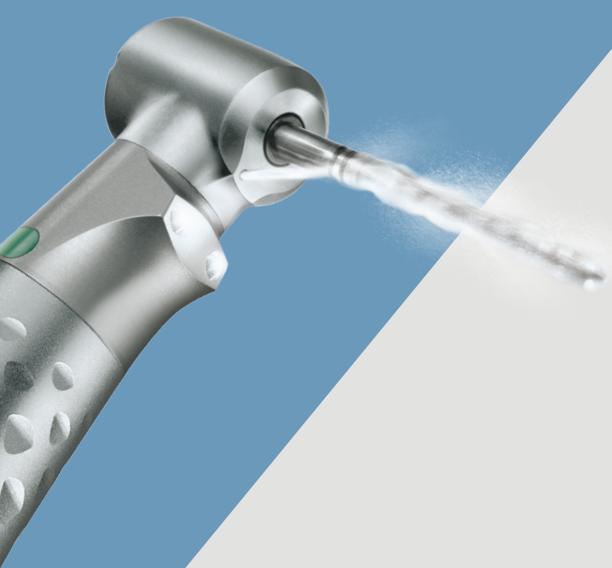

## INTUITIVE CONTROL KNOB

Turn to scroll the menus, then click to confirm your choice.

## EASY TO CLEAN

The rotary knob easily detaches for sterilization, and highly resistant glass protects the front panel for easy cleaning.

## PATENTED IRRIGATION SYSTEM

Internal irrigation travels down the threads of the osteotomy drill, cooling the bone site continuously and accurately without obstructing view.

Pair the CA 20:1 L with the Proimplant for unparalleled stability and accuracy. The system remains at least 99% accurate of its display over its service life without calibration.
